LOCAL MATTERS.

last evening an alarm of fire was turned in at Station 6, Broad-Street engine-house, caused by the partial burning of a room in the building on Eighth street between Franklin and Grace streets, occupied by Mr. Hoge, an assistant in Mr. Thomas H. Norwood's school, and adjoining the schoolroom. The fire, it is believed, originated from coals rolling out of the grate during the absence of the occupant of the room. As soon as the fire was discovered a report became current that Mozart Hall was in flames, and of course a great crowd gathered, for there is much interest taken in that hall. Policeman Oglevie, of the First district, who happened to be in the neighborhood at the time, procured an axe and effected an entrance from the rear. Upon going up to the room he found the mantelpiece burning and the fire creeping up the sides of the window-frame. He broke open the door and went president, which office he held up to October of last year, and at his request a change was made, and the Rev. Joshua Peterkin, frame. THE MOFFETT WHISKEY-TAX.—Deputy-Commissioner-of-the-Revenue John Wilks has unished the work of taking the state of the Moffett registers for December in that section of the city east of Twelfth street. The tax on alcoholic liquors is \$1,934.60; malt liquors, \$247.99-total, \$2,182.59. There are 194 registers in this portion of the city, of which 60 are malt. The yield is about \$11 per register for the month. In the same territory in September the registrations amounted to \$1,542.68; October, \$2,509.54; November, \$1,462.41. It should be remembered that lager-beer is consumed here in greater quantities, in proportion to population even, than in any other section of the State. It pays only one half cent per drink, while whiskey pays

The dealers cited before Judge Guigon to show cause why their licenses should not be revoked make a better showing than for October. In six cases in Mr. Wilks's district the October figures compare with those for December as follows: 65-313; 53-300; 124-469; 49-372; 72-303; 54-424.

If councilmen would consider the condition of business here—the number of men unemployed, and the amount of fined \$1 each for being drunk and resisting property unproductive, and the severe economy compelled to be practiced by the majority of persons-it would not only be just and reduce the price of gas from \$2.50 to \$2, but absolutely decline (even when forced to use the State assessment, which is lower than the city's) to increase the rate of taxation. Tax-payers should call upon the council-

The report was adopted. Mr. McRae read a lengthy plan for the sale of the city water-power, which is subject to modification. The plan will, when perfected, be published in pamphlet form, and, together with lithographic maps of the water-power, be distributed broadcast over the United States and Europe.

A number of bills were presented and unimportant business the Council adjourned.

VEGETINE.

THE "LOST ART" RECOVERED.

Galen, the most celebrated physician, flourished in the second century. His theory was that roots and herbs, properly compounded, are Nature's remedy. His cures were so marvellous that he was accused of magic. His mighty skill and success silenced his-enemies, and his opinions held sway in the medical

A HOPELESS SUFFERER CURED BY VEGETINE.

Dear Sir.—Thinking that a statement of my case may meet the eye of some one suffering from scrofula. I beg you to publish the following, which I cheerfully furnish of my own free will.

I have been afflicted with Scrofulous Humor from my birth, and at times very badly. When about six years old the disease made its appearance on my head, and it was deemed advisable to have the hair shaved, but they were obliged to cut it off with embroidery scissors, as my head was so sore I could not have it shaved. After we had succeeded in healing the sores on the outside they broke, but on the inside, causing me great pale. There have been times when the surface of my hands was all raw from the effect of this humor, and no pen can describe the great suffering I have endured.

of this humor, and no pen can describe the great suffering I have endured.

About three years ago small kernels made their appearance on the cords of my neck, several of which grew into quite large tumors, and nothing which we could use would remove them. My whole system was so full of scrofulous humor that it seemed ready to burst through the skin at all parts of my body, and I was in a terribly week and feeble condition. The tumors on my neck had grown to such a size as to disfigure me badly. When in this hopeless condition I was advised by a friend to try the VEGETINE, and I at once commenced taking it, and after I had used it a short time the tumors commenced discharging, and I do not think I over-estimate the quantity from each tumor when I say that a good-sized teacupful of corruption ran out, after which they commenced to heal up and disappear, and now my neck is as smooth and free from bunches as any ladys.

UNSOLICITED EVIDENCE.

SPRINGFIELD, ME., May 14, 1872. Mr. H. R. Stevens: Dear Sir,—My daughter has been out of health for Dear Sir,—My daughter has been out of health for about two years. About a year age she had a tumor come on her side, which was very painful.

1 saw VEGETINE advertised in the Farmer, and sent to Bangor and got two bottles. She is now taking the second bottle; her health is much improved, and the tumbr is going away as fast as it came. Every one in this vicinity knows what VEGETINE has done for my daughter, and I take every opportunity to recommend it to those who are not aware of its great value. Very respectfully. its great value. Very respectfully, MRS. SUSAN C. HANDALL.

EVERY ONE SPEAKS FAVORABLY. EAST MARSHFIELD, MASS., August 31, 1870.

Dear Sir,—I have been troubled with Canker from childhood, causing my mouth to be so sore at times that I was unable to eat. Have taken many preparations, but with no effect until I tried your VEGETINE. After taking a few doses I found it relieved the faintness at the stounch that always accompanies Canker Humor; and by the time I had taken the third bottle my mouth was antirely enred. Have not been troubled with it since that time, which is eight months ago. I have recommended it to several of my ac-

quaintances, and every one speaks favorably of its good effect. Yours truly, P. S. SHERMAN.

CASE OF JOHN P. KEELING, ESQ., STATED BY

[Extract from letter dated near London Bridge, Va., September 4, 1877.] "Mr. John P. Keeling suffered from dyspepsia of the most aggravated and distressing form, being subject to violent attacks of spasmodic gastralgia immediately upon taking food into the stomach, which attacks were not at all amenable to treatment. He became so prostrated that it was with difficulty he could walk across his chamber floor, and often had to be lifted about. Such was the state of his

At the expiration of the third day the irritability of the stomach was decidiv less, and the quantity was then increased from day to day until the thirteenth day, when I found that the patient could take twelve ounces, which I regard as a maximum dose at any time. Persisting in its use, on the twenty-eighth day he was free from pain, the stomach in a normal condition, readily receiving both solids and liquids in moderate quantities, strength greatly increased. condition, readily receiving both solids and liquids in moderate quantities, strength greatly increased, and nervous symptoms entirely relieved. At the expiration of the seventh week he was able to attend actively and regularly to his business upon the farm. His recovery, which I regard as one of the most remarkable I ever knew of, I attribute entirely to the Buffalo Lithia Water."
